Gastroenterology – Specialized Procedures

PROCEDURE / CPT CODE Specify study on prescription	DESCRIPTION	LOCATIONS
MRI Rectal Carcinoma 72197 MR Pelvis with and without contrast	High resolution small field of view dedicated MRI of the Pelvis utilizing dedicated surface coils for accurate local staging of Rectal Carcinoma. Endorectal coils are not utilized. When ordering this particular pathology, please indicate on the prescription RECTAL CARCINOMA STAGING WITH RECTAL GEL and location of rectal tumor. **NOTE: Prior colonoscopy is mandatory.**	Bridgewater, East Brunswick, Edison, Elizabeth, Freehold, Metuchen, Monroe, Point Pleasant, Somerset, Teaneck, Tinton Falls
Gallium Dotatate PET 78815 / GA68	Gallium Dotatate PET Scan is used to diagnose neuroendocrine / cacinoid tumors. Primarily GI or Pulmonary tumors. **Note limited insurance coverage and patient should consult with their carrier.** Medicare, Aetna and Aetna Medicare Advantage, Horizon BCBS and Braven Medicare Advantage, AmeriHealth, Qualcare, United, Oxford and United Medicare Advantage including AARP, VA Community Care that must be authorized by the VA. Cigna requires a Single Case Agreement.	Freehold, Moorestown, Nutley, Neptune
MRI Enterography 74183 MR Abdomen / 72197 MR Pelvis with and without contrast	Radiation free MR procedure primarily for diagnosing Crohn's Disease with benefits similar to CT Enterography. Oral contrast administered the day of the exam (New lemon-lime flavor).	Bedminster, Cherry Hill, East Brunswick, Edison, Elizabeth, Freehold, Hillsborough, Lacey, Linden, Maplewood, Metuchen, Monroe, Moorestown, Neptune, Point Pleasant, Oakhurst, Somerset, Teaneck, Wall, Warren
Dynamic Pelvic Floor MRI 72195 MR Pelvis non contrast	High resolution small field of view dedicated dynamic MRI of the Pelvis for patients with signs and symptoms of Pelvic Floor Dysfunction including constipation, incomplete defecation, fecal and urinary incontinence, pelvic floor prolapse, and post surgical recurrence. Intravenous contrast not utilized.	East Brunswick, Edison, Freehold, Neptune, Point Pleasant, Teaneck, Warren
Sitz Marker Study	A colon transit study that uses tiny radio-opaque markers to test how fast food/stool travels though the intestines. It is most often ordered on patients sufferring from chronic constipation.	Bedminster, Bridgewater, Cherry Hill, East Brunswick, Edison, Elizabeth, Freehold, Hillsborough, Lacey, Maplewood, Metuchen, Monroe, Neptune, Point Pleasant, Somerset, Teaneck, Tinton Falls, Warren
MRI Fistulagram 72197 MRI Pelvis without and with contrast	High resolution small field of view dedicated MRI examination of the pelvis performed with intravenous contrast. This exam helps define the course of anal fistulas from the internal opening at the dentate line to the external opening along the anal verge. The exam also demonstrates complications associated with the fistulas including abscesses and addition sinus and fistulous tracts.	Beminster, Cherry Hill, East Brunswick, Edison, Elizabeth, Freehold, Hillsborough, Lacey, Linden, Maplewood, Metuchen, Monroe, Moorestown, Neptune, Oakhurst, Point Pleasant, Somerset, Teaneck, Wall, Warren
Liver-specific Eovist MRI 74183 MR Abdomen with and without contrast	Eovist contrast agent is beneficial in characterizing lesions suspected of being FNH on other imaging studies. **Please request Eovist on the prescription.**	Beminster, Bridgewater, Cherry Hill, East Brunswick, Edison, Elizabeth, Freehold, Hillsborough, Lacey, Linden, Maplewood, Metuchen, Monroe, Moorestown, Neptune, Oakhurst, Point Pleasant, Somerset, Teaneck, Tinton Falls, Wall, Warren
ElastQ Shear Wave Liver Ultrasound Elastography 76981	Noninvasive procedure that enables assessment of liver tissue stiffness under ultrasound guidance. Ultrasound guided images yields results that are reproducible even for the technically difficult patients such as patients with high BMI. **Please request Liver Elastography Ultrasound on Prescription**	East Brunswick, Elizabeth, Hillsborough, Lacey, Maplewood, Monroe, Moorestown, Somerset (Veronica), Teaneck, Warren
CT Enterography 74177 CT Abdomen/Pelvis with IV contrast	Provides exquisite evaluation of the small bowel, primarily used for Crohn's Disease. It can also identify small bowel strictures which may hamper use of a video capsule. This can also be used to search for other suspected small bowel pathologies. Oral contrast administered the day of the exam (New lemon-lime flavor).	Bridgewater, Cherry Hill, East Brunswick, Edison, Elizabeth, Freehold, Hillsborough, Lacey, Maplewood, Metuchen, Monroe, Moorestown, Neptune, Oakhurst, Point Pleasant, Somerset, Teaneck, Tinton Falls, Warren
CT 3D Virtual Colonoscopy 74261 CT Colonography for Precerts non contrast	Third party insurance coverage for failed optical colonoscopies and selective high risk Medicare patients. **Contraindications include a positive Cologuard test.**	Bridgewater, Edison, Freehold, Maplewood, Neptune, Point Pleasant
Mesenteric Artery Doppler, Ultrasound CPT: 93976	Clinical indications include chronic abdominal pain, abdominal pain after eating or weight loss. This exam evaluates for stenosis or occlusion of the celiac, superior mesenteric and inferior mesenteric arteries. This exam can also be used to rule out median arcuate ligament syndrome (MALS).	Elizabeth, Monroe, Freehold
